

# Cancer – A Fresh Perspective and the Seven Keys to Healing

With Fiona Shakeela Burns MNIMH

A seminar for practitioners working holistically with cancer

- Become a more effective practitioner for helping people with cancer
- Learn about cutting edge meta-physical healing techniques as well as new scientific breakthroughs
- Understand the importance of juicing and detoxification
- Learn the 'The 7 keys approach'
- Understand Cancer and what causes it
- Lose your fear around this dis-ease

Early Bird Offer!

Pay before  
4<sup>th</sup> August 2010

and pay £10 less

Fiona healed from cancer twice, both times the doctors had pronounced her terminally ill. She had Plasma Cell Leukaemia aged 11 and then as an adult, metastasised Cervical cancer which had spread to the ovaries and the brain. She had no conventional treatment.

Her childhood cancer recovery which was due largely to the Gerson Therapy, led to her becoming a Medical Herbalist and she was able to bring this experience to her own healing process 31 years later.

Her belief in her recovery, coupled with absolute determination to get well, resulted in her dramatic and rapid return to health against all odds.

Fiona is now ready to share with her colleagues the valuable lessons that she learned, including the "back-to-basics" principles of healing which she applied. She used a combination of diet, herbs, juices, Vitamin C infusions and body-mind techniques, as well as some cutting edge treatment at a German clinic.

Her high-speed roller coaster journey has left her with the belief that there is no such thing as an incurable illness.

Having identified the seven distinct keys which were involved in her Cancer recovery, Fiona is looking forward to sharing these with other practitioners.

Fiona will also share her insights about how her mind and emotions played key roles, first in the creation of her disease and then in her return to health. She will explain how she used enemas, rectal and vaginal implants of decocted herbs and essential oils. Also covered, will be Immune-stimulating and anti-tumour herbs and supplements, Insulin-potentiated targeted chemotherapy, hyperthermia and Bruce Lipton's work on how the beliefs that we hold affect our physiology.

There will also be opportunity for practitioners to share their own experiences of working with people with cancer. One in two people are now being diagnosed with cancer – there is a great need for help in this area of medicine.

Whilst on her healing journey, Fiona came to understand that the main purpose for her life was inspiration; both to receive it and to offer it to others.

She hopes for both at this seminar.

### **What previous participants have said about this seminar**

“Excellent to witness an Eclectic choice of naturopathic therapies used in such as effective way. The tools of the trade used to their best advantage.

I liked the openness of Fiona's description of her healing methods, and willingness to expand details when requested”

***Caroline Galloway MNIMH***

“Fiona, I loved it all....you are an inspiration! “

***Sebastian Pole Founder of Pukka Herbs***

“This seminar was inspirational and informative Fiona was consistently open honest and generous with information. I left feeling inspired to make changes in my own life as well as to share new information with clients.”

***Mary Trenfield – PSYCH-K Trainer***

“This seminar surpassed my expectations – I would definitely recommend it to friends and colleagues”

***Gursewa Harrad – Medical Herbalist London***

“The seminar was direct, and honest. Fiona was passionate about communicating her experiences, without any sense of ego or arrogance. She spoke her truth from the heart, and gave enough information to allow us to go away and explore further.”

***Steve Taylor - Medical Herbalist***

“ I thought it was absolutely brilliant – I learned so much. Everything was explained very clearly and Fiona answered all questions put to her very clearly and in a very matter of fact and down to earth manner.”

***Maggie Hubbard - Medical Herbalist***
